ANVITHA K V

AI/ML ENGINEER

+91 8590991454 | anvithaaaa23@gmail.com | linkedin.com/in/anvitha-k-v | github.com/anvithakv
Kasaragod, Kerala

Professional Summary

AI/ML graduate with hands-on experience in Machine Learning, Deep Learning, Computer Vision and NLP through internships and AI projects. Proficient in Python, SQL, TensorFlow, OpenCV, Scikit-learn and Power BI. Developed AI-powered applications including AirScript AI and AI Career Mentor. Seeking an AI/ML Engineer role to build intelligent AI solutions.

Education

Master Certificate in Artificial Intelligence **2025–2026**

Livewire, Kasaragod

B.E. Artificial Intelligence and Machine Learning **2021–2025**

Yenepoya Institute of Technology, Mangalore
CGPA: 8.08

Skills

Languages: Python, SQL, C, HTML, CSS
AI/ML: TensorFlow, Scikit-learn, OpenCV, MediaPipe, NumPy, Pandas, Matplotlib
Tools: Git, GitHub, VS Code, Streamlit, Power BI, MySQL, MS Office
Core: Machine Learning, Deep Learning, Computer Vision, NLP, OOP

Experience

AIML Intern – Edubyheart India Pvt Ltd **Feb 2025 – May 2025**

- Developed ML and Deep Learning models using TensorFlow and Scikit-learn.
- Performed preprocessing, feature engineering, model training, evaluation and deployment.
- Collaborated with the development team to evaluate model performance and improve prediction accuracy using appropriate evaluation metrics.

Data Engineering Intern – NSDC **Oct 2024 – Dec 2024**

- Worked on ETL workflows, SQL analysis and data preprocessing.
- Created dashboards using Power BI and Microsoft Excel.
- Improved data quality by validating datasets, identifying inconsistencies and implementing data cleaning techniques.

Technical Projects

AirScript AI *Python — TensorFlow — OpenCV — MediaPipe*

- Developed a real-time air-writing recognition system using MediaPipe hand tracking and a CNN model.
- Achieved 99.23% test accuracy with a live OpenCV dashboard and prediction history.
- Implemented confidence visualization and gesture recognition for improved user interaction.

AI Career Mentor *Python — Streamlit — Scikit-learn — Gemini API*

- Developed an AI-powered career guidance platform for resume analysis and career prediction.
- Implemented TF-IDF vectorization, skill-gap analysis and job readiness assessment.
- Integrated Gemini API to generate learning roadmaps and interview questions.

Plant Disease Detection Using CNN *Python — TensorFlow — OpenCV*

- Developed a CNN model for plant disease classification.
- Performed image preprocessing, augmentation, training and validation.
- Evaluated model performance using standard classification metrics.

Personalized AI Chatbot *Python — Gemini API — JSON*

- Built an AI-powered chatbot with personalized user profiles and conversation history.
- Generated context-aware responses using Gemini API and JSON-based storage.
- Implemented conversation management for personalized interactions.

Certifications

- IBM Machine Learning with Python
- IIT Bombay Certification in Linux, Git and R
